

LDTRA - Setting-up Java

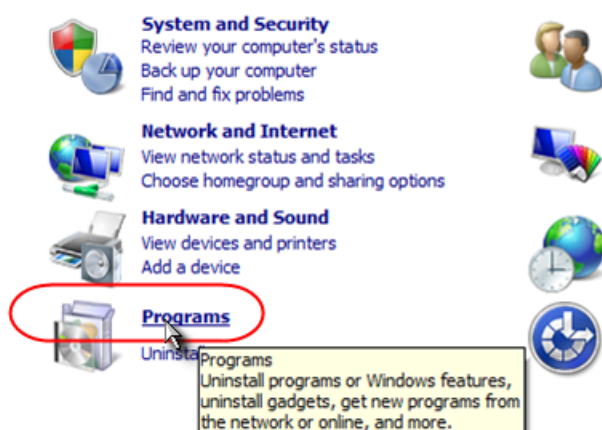

February 3, 2014

Newer versions of Java are more secure and therefore require some additional setup in order for you to utilize the City of Santa Barbara's Land Development Team Records Archive (LDTRA).

Solution

This procedure is written for the Windows 7 operating system. Other operating systems may require modification of this procedure.

- 1) Close your web browser.
- 2) Click on **Start** and then **Control Panel**.
- 3) Click on **Programs**.

- 4) Click on **Java**.

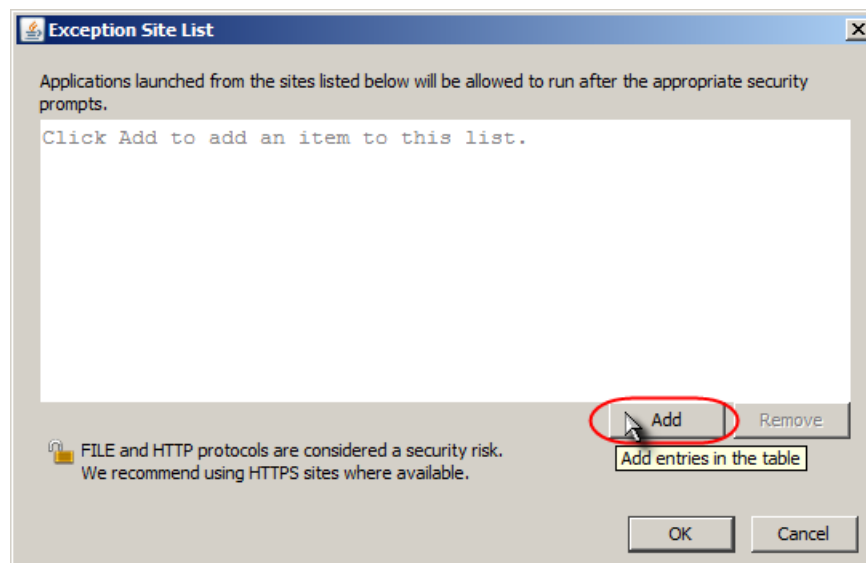

- 5) Click on the **Security** tab and then click on the **Edit Site List** button.

- 8) Click **OK** to save the URL that you entered.
- 9) Click on the **OK** button on the **Security** tab to accept the changes.

Congratulations, you have successfully added the City of Santa Barbara LDTRA to your Java Exception Site list.

Open your web browser to <http://LDTRA.SantaBarbaraCA.gov/> and search the LDTRA for records as usual.

If you are using Internet Explorer, be sure you are in [Compatibility View](#).
